Interests

I love gourmet cooking and baking. I grew up in my dad's bakery and even tried my hand as a pastry chef at Café Society in NYC. My specialty is biscotti of every variety.

I enjoy art museums and I paint murals and specialty finishes.

I have fixed and flipped several homes and built two new homes. I have a passion for beautiful interiors and architecture.

I am an avid follower of fashion since getting the bug in my retail experience in Manhattan.

I am an accomplished gardener. I compost diligently and once designed and built a segmented garden fashioned after a French parterre complete with stone mosaics.
